Professional Summary

Results-driven and experienced Web Developer with expertise in designing, developing, and maintaining dynamic websites. Proficient in both front-end and back-end development with a strong understanding of modern web technologies. Collaborative team player with excellent problem-solving skills and a passion for creating user-friendly and visually appealing web solutions

Experience

Full Stack Developer – (Part-Time)

10/2022 to Current

Wahlreich – Dresden, Germany

Website - <https://wahlreich.de/ueber-uns/>

Email address - kontakt@wahlreich.de

With over 6 years of experience, Dresden-based Wahlreich specializes in creating unique, bespoke websites for clients, as a remote Web Developer, I am responsible for building and maintaining responsive websites.

- Create responsive and visually appealing websites using PHP, HTML5, CSS3, and JavaScript, enhancing user experience and engagement.
- Develop and maintain websites using WordPress, applying Elementor and Gutenberg to design appealing and functional websites.
- Customize WordPress themes to align with clients' branding, incorporating e-commerce functionality and optimizing site performance.
- Use AI-powered tools such as ChatGPT to increase efficiency and optimize work processes.
- Implements SEO measures with Yoast SEO, All in One SEO, and Rank Math SEO for enhanced website visibility in search engines.
- Utilize git for version control, enabling seamless collaboration and code base management within the development team.
- Use Jira software, Jira service management, Jira work management, and confluence for project planning, management, and documentation.
- Provide ongoing support and maintenance of live websites to clients, ensuring their websites remain up-to-date and secure.

Information Technology Executive (IT Executive)

02/2022 to 06/2024

Bizwin Solutions (Pvt) Ltd – Kiribathgoda, Sri Lanka

Website - <https://bizwinlk.com>

Email address - info@bizwinlk.com

As an IT Executive at Bizwin Solutions (Private) Ltd, I oversee web development, IT governance, compliance, and social media handling, ensuring a comprehensive range of client services.

- Develop prototypes and website designs based on analytics data with Figma.
- Conduct performance tests for websites and resolved content issues efficiently.

- Monitor the performance of the live website.
- Collaborate with clients to gather requirements, provide technical recommendations, and deliver tailored web solutions.
- Translate mockups and wireframe designs into functional websites, ensuring pixel-perfect implementation.
- Conduct regular website maintenance, including updates, bug fixes, and performance optimizations.
- Optimize website performance and ensure security through efficient coding practices and caching techniques.
- Provide technical support to company staff, including data backups, budgeting and resource management, infrastructure management, email handling, document creation, spreadsheet management, presentation development, and data analytics.
- Implement SEO best practices to improve website visibility, rankings, and fast loading speeds.
- Manage the backend of the website, including database and server integration.
- Design logos, banners, e-flyers, Business cards with QR codes, and social media pages.

Office Clerk – Trim Inspector – Data Entry Operator

06/2021 to 12/2021

Rainbow Fashions – Ipalogama, Sri Lanka

Website - <https://kgnholdings.lk/companies/rainbow-fashions>

Email address - trimsdpt@rbf.rainbowfashion.lk

Rainbow Fashions, a leading apparel manufacturer in Sri Lanka, produces high-quality knit and woven products for global brands. As a Trim Inspector/Data Entry Operator, I ensured garment trims met design specifications, maintained records, and handled email.

- E-mail & Communication management.
- Ensure the quality and compliance of trims and accessories used in garment production.
- Scheduling and Calendar management.
- Data entry & Record keeping ([MS Office])
- Document preparation & Formatting. (File handling)
- Data analysis & Reporting.

Web Developer

01/2020 to 05/2021

Rainbow Fashions – Ipalogama, Sri Lanka

Website - <https://kgnholdings.lk/companies/rainbow-fashions>

Email address - trimsdpt@rbf.rainbowfashion.lk

For over seven years, Univsoft Solutions has provided efficient software solutions for various challenges. As a web developer, I managed responsive websites, databases, and logo design, and served as team leader.

- Developed and maintained responsive websites using MS SQL, PHP, HTML5, CSS3, and JavaScript, ensuring optimal performance across multiple devices and browsers.
- Designed logos, banners, and e-flyers.
- Conducted regular code reviews and implemented improvements to maintain code quality and scalability.
- Collaborated with clients to understand their unique requirements and translate them into effective web solutions, resulting in high client satisfaction and repeat business.
- Utilized git for version control, enabling seamless collaboration and code base management within the development team.
- Managed project timelines, coordinated tasks, and supervised junior developers to ensure successful project completion.
